8vo. Cant. 1884.

[Dr Luard was Registrary from 1862 to 1891.]

An examination of the above titles shews that the first three volumes record the degrees conferred between 1659 and 1823; the fourth and fifth those conferred between 1760 and 1856; and the sixth and seventh those conferred between 1800 and 1884. In other words the whole period covered is that between 1659 and 1884.

The volume now issued, which it is proposed to call *The Book of Matriculations and Degrees,* contains the names of all those who were matriculated, as well as of all those who proceeded to degrees, from 1851 to 1900 inclusive. Further, proper names are now, for the first time, printed in English instead of in Latin; and a degree is held to mean any degree, whether real or honorary, or merely a repetition of one conferred by some other University.

Tables of abbreviations of proper names, and of the letters used to designate the various degrees conferred, are printed after this preface. It should be noted that the date printed after a degree is that of inauguration or creation, not of admission, except in the case of Bachelors of Divinity and complete degrees conferred *honoris causa,* neither of which need creation. At present the day for the inauguration of Bachelors of Arts, Law, and Music is the last day of the Michaelmas Term; but for Bachelors of Medicine and Surgery it is the Tuesday immediately preceding the last day of the Easter Term. It therefore frequently happens that a Bachelor of Medicine or of Surgery may have been admitted to the title of his degree in the Michaelmas Term of the civil year preceding that of his inauguration. Masters of Arts and Law, and Doctors

in the various faculties, are created on the same day as Bachelors of Medicine and Surgery are inaugurated; and many of them have been admitted to the title of their degree in the previous year.

The volume has been prepared for the press by my friend the Rev. J. F. E. Faning, M.A., one of the Chaplains to King's College, and Assistant Registrary; and I wish it to be distinctly understood that my share in it has been limited to the suggestion, at the outset, of some of the principles on which this new departure in the publication of a catalogue of *Graduati* should be based, and to a revision of the proof-sheets. My warmest thanks are due to Mr Faning for the care and accuracy with which he has discharged the onerous duty of editor.

JOHN WILLIS CLARK,

Registrary.
